CHILD SAFETY

Our window treatments are designed with child safety in mind, completely eliminating the need for cords. Traditional window coverings with cords can pose serious hazards, such as strangulation risks for young children and pets. To address this concern, our innovative designs feature cordless mechanisms or motorized options that ensure a safer home environment without compromising on style or functionality. These advanced window treatments provide peace of mind for parents and pet owners, knowing that their loved ones are protected from potential dangers.

MOTORIZATION

Motorization is rapidly becoming the most dynamic sector in the window covering industry. Motorization offers a diverse range of options, from battery-operated motors to sophisticated systems that integrate seamlessly with smart home technologies. Consumers can choose from rechargeable batteries, electric motors, DC-powered systems, and advanced smart motors to automate almost any type of window treatment.

ROLLER SHADES

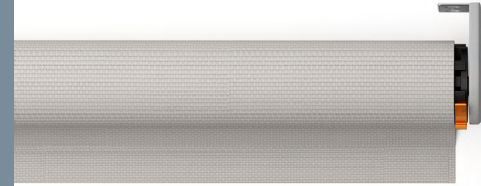

ROLLER SHADES

This collection offers a wide range of fabrics and customization options that provide solutions for various sun control needs. Roller shades provide proper sun protection and light control. This collection gives you the ability to incorporate printed artwork adding to the personalization of the application.

PARALLEL SHADES

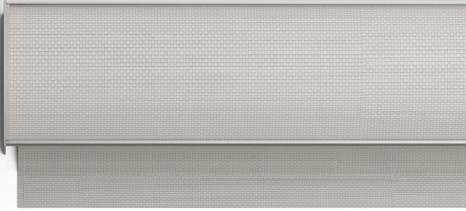

MOTORIZATION OPTIONS AVAILABLE

PARALLEL SHADES

Parallel Shades contain an easy-to-use chain operated clutch control that effortlessly slides the opaque and translucent woven stripes past each other. The front layer moves independently of the back allowing the stripes to glide between each other creating an open and closed effect. This allows for limitless light control.

CASSETTE 100

CASSETTE 120

SQUARE CASSETTE

TOP TREATMENTS

The Cassette 100 and Square Cassette systems are mid-sized options for smaller to medium size shades. The Cassette 120 offers the same sleek design for larger shades.

*Available in White, Bronze, Black, Vanilla, and Anodized.
Color coordinated to match the shade with matching fabric inserts available. **

WOVEN WOODS

UNIQUE & STYLISH

WOVEN WOODS

The Woven Wood Collection incorporates bamboo, reed, exotic grass, and woven blends for distinctive window shades. The range of materials and weave patterns allows for a unique and stylish appearance, complemented by various control and privacy options to suit different decor preferences.

HONEYCOMB SHADES

COMFORT & ELEGANCE

HONEYCOMB SHADES

Honeycomb Shades are aesthetically pleasing, easy to operate, and offer minimal light gaps. Their cellular design provides excellent insulation, making them energy-efficient, while the wide range of fabric options allows for customization to suit any decor. Perfect solution for home or office applications.

HORIZONTAL SHEERS

ELEGANT & EFFECTIVE

HORIZONTAL SHEERS

Horizontal Sheers are the innovative fusion of light filtering fabric combined with the functionality of traditional horizontal blinds. Sheer Shades are constructed of horizontal fabric vanes suspended between two vertical layers of soft, knitted fabric sheers, allowing the user to choose between privacy and clear visibility options.
